26 February 2007

From: Director, Theater Network Operations and Security Center  
(TNOSC), Naval Computer and Telecommunications Station  
(NCTS), Naples

To: ONE-NET and Legacy Networks Customers

Subj: MEMORANDUM: USER HOME DRIVE LIMIT ENFORCEMENT

Ref: (a) MSG DTG 211552Z JUN 05: ONE-NET INFORMATION BULLETIN (OIB) 8A,  
STORAGE AND EXCHANGE MAILBOX RESOURCE ALLOCATION

1. This memorandum is being sent as a ONE-Net advisory to all commands that have migrated to the ONE-Net system.
2. This policy is applicable to all United States military personnel, and to all civilians, including contingency contractor personnel, serving with, employed by or accompanying the Armed Forces of the United States that have migrated to ONE-Net.
3. IAW reference (a), the storage limit for user home drives cannot exceed 850 megabytes. Users who exceed the limit, at the time of share drive migration, will be restricted from writing additional data in their home drive until they are below the storage limits. Management of user home drive data is the sole responsibility of the user.
4. Theater Network Operations and Security Center (TNOSC) Europe is available to assist you in the management of your system share drive and will answer questions of your IT representative. Users who are above the authorized storage limits will be required to reduce the amount of data within their home drives before they will be able to write any data to the home drive.
5. For additional information, please contact your command Change Agent, Store Front Manager, CIO, or Knowledge Manager. Additionally, please feel free to contact the TNOSC Business Office Manager at DSN 314-626-4225 any time.
